Prompt 01

A YouTube thumbnail with your face

INPUT A photo sheet of your face

Add your own face reference.

Create a compelling YouTube thumbnail for a video comparing Nano Banana 2.1 and GPT Image 2.5 for creators, featuring the woman in the reference. Invent the visual concept, composition, expression and wardrobe. Make the comparison instantly clear at small size. Exact readable text: "NANO BANANA 2.1", "GPT IMAGE 2.5", and "WHICH WINS?" Preserve her facial identity. Cinematic, colorful, premium.

Nano Banana 2.1

Prompt 02

The raspberry thief

INPUT One photo of you

Add your own face reference.

Create a cinematic, playful photograph in a charming sunlit kitchen. The adult woman in the reference has caught a tiny adult version of herself stealing a raspberry. The full-size woman holds the miniature by pinching the back of her cropped plum jacket, lifting her into midair above the kitchen counter. They look directly at each other: the larger woman gives a knowing raised eyebrow, the miniature looks caught red-handed and hugs a raspberry nearly as wide as her torso. Both share the reference woman's face and hairstyle, wearing fashion-forward plum jackets, ivory bow blouses, black shorts and burgundy boots. The miniature is a uniformly shrunken real adult with natural adult head-to-body proportions, not a doll or child. Clear believable grip on the fabric, dangling legs and contact shadows. Warm cream and sage kitchen, scattered raspberries, magical yet photorealistic.

Prompt 03

A busy produce market

INPUT No references, prompt only

A documentary photograph inside a busy neighborhood produce market in daylight. An older vendor hands a paper bag of peaches to a customer while another shopper passes behind them. Candid everyday gestures, ordinary people, worn surfaces and natural skin texture. Available window light, photographed at eye level.

Prompt 04

An iPhone flash birthday party

INPUT No references, prompt only

An iPhone flash snapshot of five adult friends squeezed together at a small apartment birthday party, laughing just as one friend brings a cake into the room. Ordinary clothes, candid expressions, a slightly off-center composition. Direct phone flash on their faces with warm room light behind them. An everyday photo taken by another friend.

Prompt 05

Photo + hand-drawn ink

INPUT One photo of you

Add your own face reference.

Create a fashion editorial of the woman in the reference waiting at a rainy tram stop. Preserve her identity. Style: photographic portrait blended with hand-drawn ink scenery.

Prompt 08

Around the World (mixed media)

INPUT One photo of you

Add your own face reference.

Create a mixed-media travel fashion editorial featuring the adult woman in the reference, preserving her face and hairstyle. The photorealistic woman wears a plum jacket, ivory bow blouse, black tailored shorts and burgundy boots as she opens an emerald suitcase on a table. A colorful hand-drawn crayon staircase and world landmarks emerge from inside. A clearly visible hand-drawn miniature version of the SAME woman, with matching hair and outfit, climbs the illustrated staircase and waves back at her real self. Keep the real woman and suitcase photographic, and the miniature woman and emerging world visibly hand-drawn with wax-crayon texture. The suitcase lid opens backward on its rear hinge with its interior facing us. Cinematic soft light, imaginative premium composition. The only caption is "Around the World".

Prompt 09

A manga detective reveal

INPUT Five character sheets: the detective first, then four other characters

1 · Detective

2 · Butler

3 · Housekeeper

4 · Bellhop

5 · Manager

Create a dramatic Japanese manga page of the detective in image 1 announcing to the four hotel characters in images 2–5: "I know who the murderer is." Show all five characters and their different reactions. Invent the panel layout for this reveal moment. Redraw the references as expressive manga characters, using black-and-white ink, screentones and dynamic panel composition, not realistic photography.

Prompt 10

20 objects, one scene

INPUT One image with 20 numbered objects on a grid

1 · All 20 objects in one image

Create an image that naturally and logically brings all 20 objects in the reference image together in the same coherent scene.

GENERATED RESULTS

GPT Image 2.5

Nano Banana 2.1

This deliberately simple prompt tests how the models combine objects. For a real project, you'll usually want to describe where the objects belong and how they interact.

Prompt 11

Seven people in a hotel lobby

INPUT Seven character sheets (@img1 to @img7), each with a face close-up plus outfit front and back

1 · Detective

2 · Butler

3 · Housekeeper

4 · Bellhop

5 · Manager

6 · Guest

7 · Violinist

Create a cinematic candid photograph in a grand hotel lobby with exactly the seven people from @img1 through @img7, each appearing once, no additional people. Preserve their individual faces and outfits. Each reference is a character sheet showing ONE person in three panels: face close-up, outfit front and outfit back. Include each person only once. @img1 is the woman in aubergine-and-ivory couture. She checks a key with the butler (@img2); the housekeeper (@img3) retrieves a dropped glove; the bellhop (@img4) takes the elderly guest's (@img6) bag; the manager (@img5) checks her ledger; the violinist (@img7) tunes her violin. Slightly elevated diagonal viewpoint, natural side and three-quarter views, everyone caught mid-action and unaware of the camera. Rich cinematic lighting and layered depth.

Prompt 12

The mirror and the closed book

INPUT One image of the front book cover

1 · Front book cover

Create a bright cinematic fashion photograph of a rebellious 22-year-old woman standing in front of a large flat dressing-room mirror, holding one closed hardcover book with BOTH hands at chest height. Show her and her reflection. Her reflection must match her actual head tilt, body posture, hand positions and the book's position and closed state.

She wears a sleeveless lilac top, black jeans and silver ear piercings, with her hair pinned up. A tattoo on her LEFT upper arm reads "today is the day" in lowercase, as one continuous line along her arm from elbow toward shoulder. Keep the letters side by side, not stacked. The back of her neck has a tattoo reading "Alice".

Use the supplied image only for the exact red-and-silver FRONT book cover, preserving its title, author, silhouette and ornamentation. The front cover faces the mirror; the BACK cover faces the camera and is plain solid red with no writing or decoration. Both hands hold the book shut, with the covers flat against the page block. It is closed in both the real view and the reflection.

"MEET ME AT NINE" is written in coral lipstick directly on the mirror beside her reflection. Bright soft daylight, cream, blush and lilac colors, natural skin texture, cinematic editorial photography.

Prompt 13

Fix it with an edit

INPUT Send the result back in as the reference

1 · Image to correct

Adjust the woman outside the mirror so her posture and slight head tilt correspond to the woman in the mirror. Make the book's front cover in the mirror a correct mirrored image, including its text and artwork. Keep everything else unchanged.

Prompt 14

Two mugs on a writer’s desk

INPUT Two product photos, one per mug

1 · Yellow mug

2 · White mug

Create a warm artistic lifestyle product photograph on a writer’s Sunday desk of the two ceramic mugs in images 1 and 2. Preserve each product faithfully. Show both clearly, without overlap.

Prompt 15

Aesop bottles, with label close-ups

INPUT Front and back product photos, plus close-ups of the front and back labels

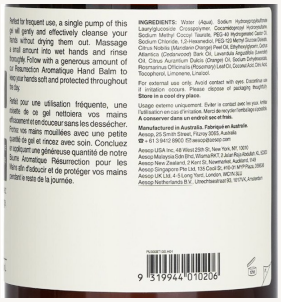

1 · Bottle front

2 · Bottle back

3 · Front label close-up

4 · Back label close-up

Create a photorealistic lifestyle product photograph for the product in images 1 and 2. Image 1 defines its front; image 2 defines its back. Images 3 and 4 are close-ups of the same front and back labels; use them for the exact typography, line breaks and small print. Exactly two identical Aesop pump bottles side by side on the same flat warm limestone hotel bathroom vanity, at the same distance from the camera, with aligned bases and equal apparent size. Left bottle shows the front label; right bottle shows the back ingredients and barcode. Both large, in focus, no overlap or raised platform. Soft folded ivory towel behind, open travel pouch off to one side, gentle morning window light from left. A woman washing her hands at the sink softly out of focus in the background, not holding or covering the bottles. Counter-height 50mm framing, believable perspective, distinct stone, fabric and skin texture and amber translucency. Preserve supplied bottle and label details, no packaging redesign or added slogans.

Prompt 16

Change only the outfit

INPUT @img1 the scene, @img2 the outfit you want

1 · Scene to edit

2 · Outfit reference

In @img1, change only the outfit of the woman on the right, who is wearing the navy top and jeans, to the white floral blouse, rust-brown button-front skirt and white sneakers in @img2. Keep both women's faces, hair, body proportions, poses, hands, coffee cups, the left woman's entire outfit, framing, lighting and café unchanged. Do not add the other accessories from @img2.

Prompt 17

A recent-event infographic

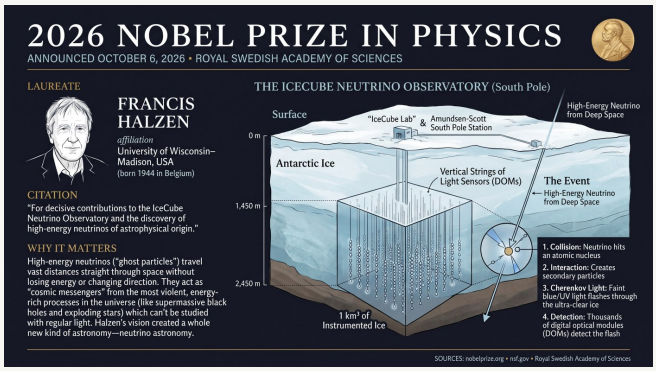

INPUT No references. Requires web search or verified facts supplied by you

Search the web for the 2026 Nobel Prize in Physics announcement, using information available as of October 12, 2026. Create a beautiful editorial science infographic titled "2026 NOBEL PRIZE IN PHYSICS". Identify who won, the announcement date, what achievement was recognized, and why it matters. Explain the discovery visually for a general audience with concise labels and one clear explanatory diagram. Include concise official source references. Sophisticated magazine design, clear visual hierarchy, restrained colors, readable English typography. Use verified information only; explicitly mark any facts you cannot retrieve as unavailable.

Prompt 18

Cross-model face fix

INPUT @img1 the scene, @img2 your face sheet

1 · Scene to edit

Add your own face reference.

Edit @img1. Keep the whole scene exactly as it is. Redo only the two faces in @img1 so both faces match the woman in @img2.
